RE: #2020087- Arterial Grind and Overlay, South

August 26, 2020

Dear Property Owner/Resident:

I would like to inform you about an upcoming street paving project on West Eagle Ridge Boulevard (Meadow Lane Rd to South Shelby Ridge St.). The construction contract has been awarded to Shamrock Paving, Inc. and will begin August 31, 2020 and will be completed in approximately two months.

Although we will do our best to minimize impacts to you during our project, construction will cause some disruption and inconvenience at times. Access to your property will be maintained as much as possible.

The contractor, construction workers, and City Inspector will be onsite throughout construction. We will gladly answer questions, assist you with access issues, and address other problems that arise during the course of the project. **I am the onsite representative and can be reached at 509-362-2604 or tawny@shamrockpaving.us.** I can directly resolve any access issues that occur during construction. If you have questions or issues that are not resolved by myself, please contact the City's Construction Relations Manager, Karin Janssen, at 509-625-6102 or kjanssen@spokanecity.org. Substantial changes to the project require the approval of the City's Project Engineer, Kelly Heitstuman. He can be reached at 509-625-7759.

During the first two weeks of construction most of the work will be done on the ADA ramps, removing and pouring new concrete. We will also be doing pavement repairs in the roadway which should have minimal affect on access to the side streets. We will begin in the westbound lane, working from Meadow Lane towards Shelby Ridge. Two lanes of traffic will be maintained with a lane shift.

We ask for your patience during construction. Our goal is to limit inconvenience where practical and construct this important safety project in a timely manner. Please look forward to the improvements you will enjoy when the project is complete.

Sincerely,

Tawny Thompson
Shamrock Paving, Inc.
